

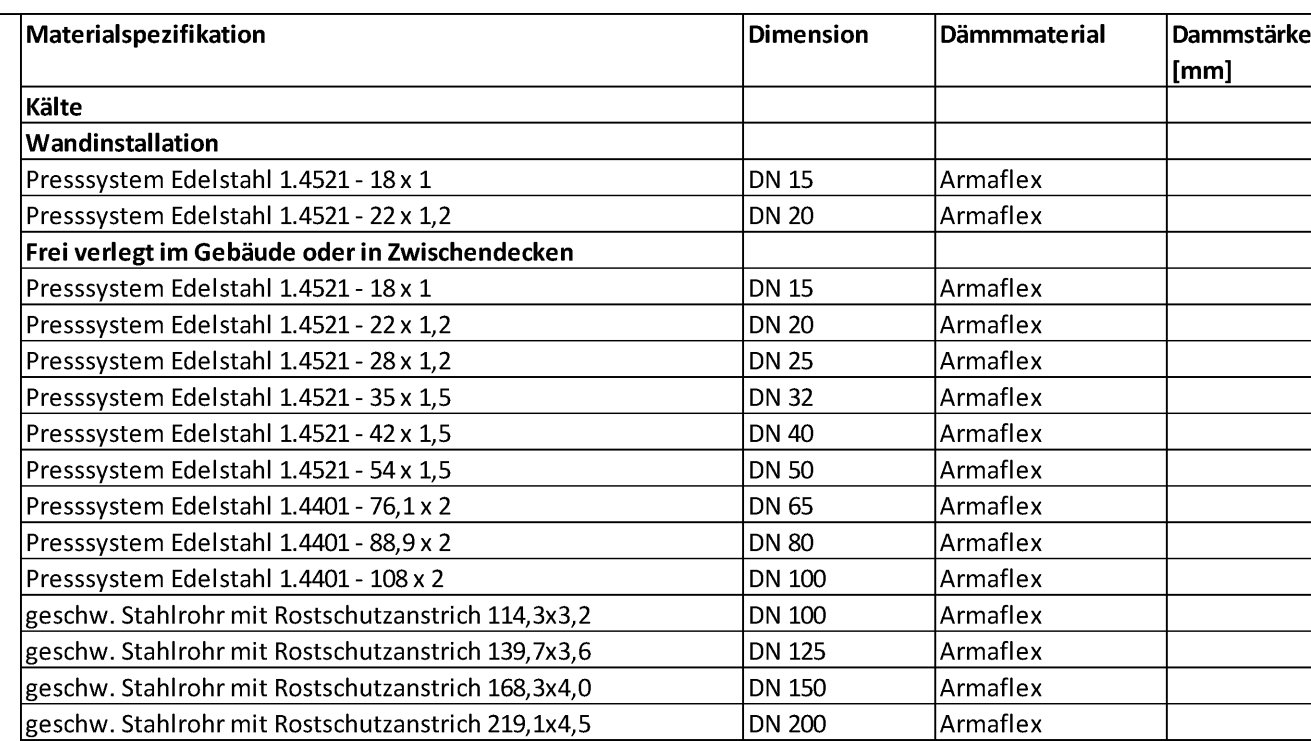

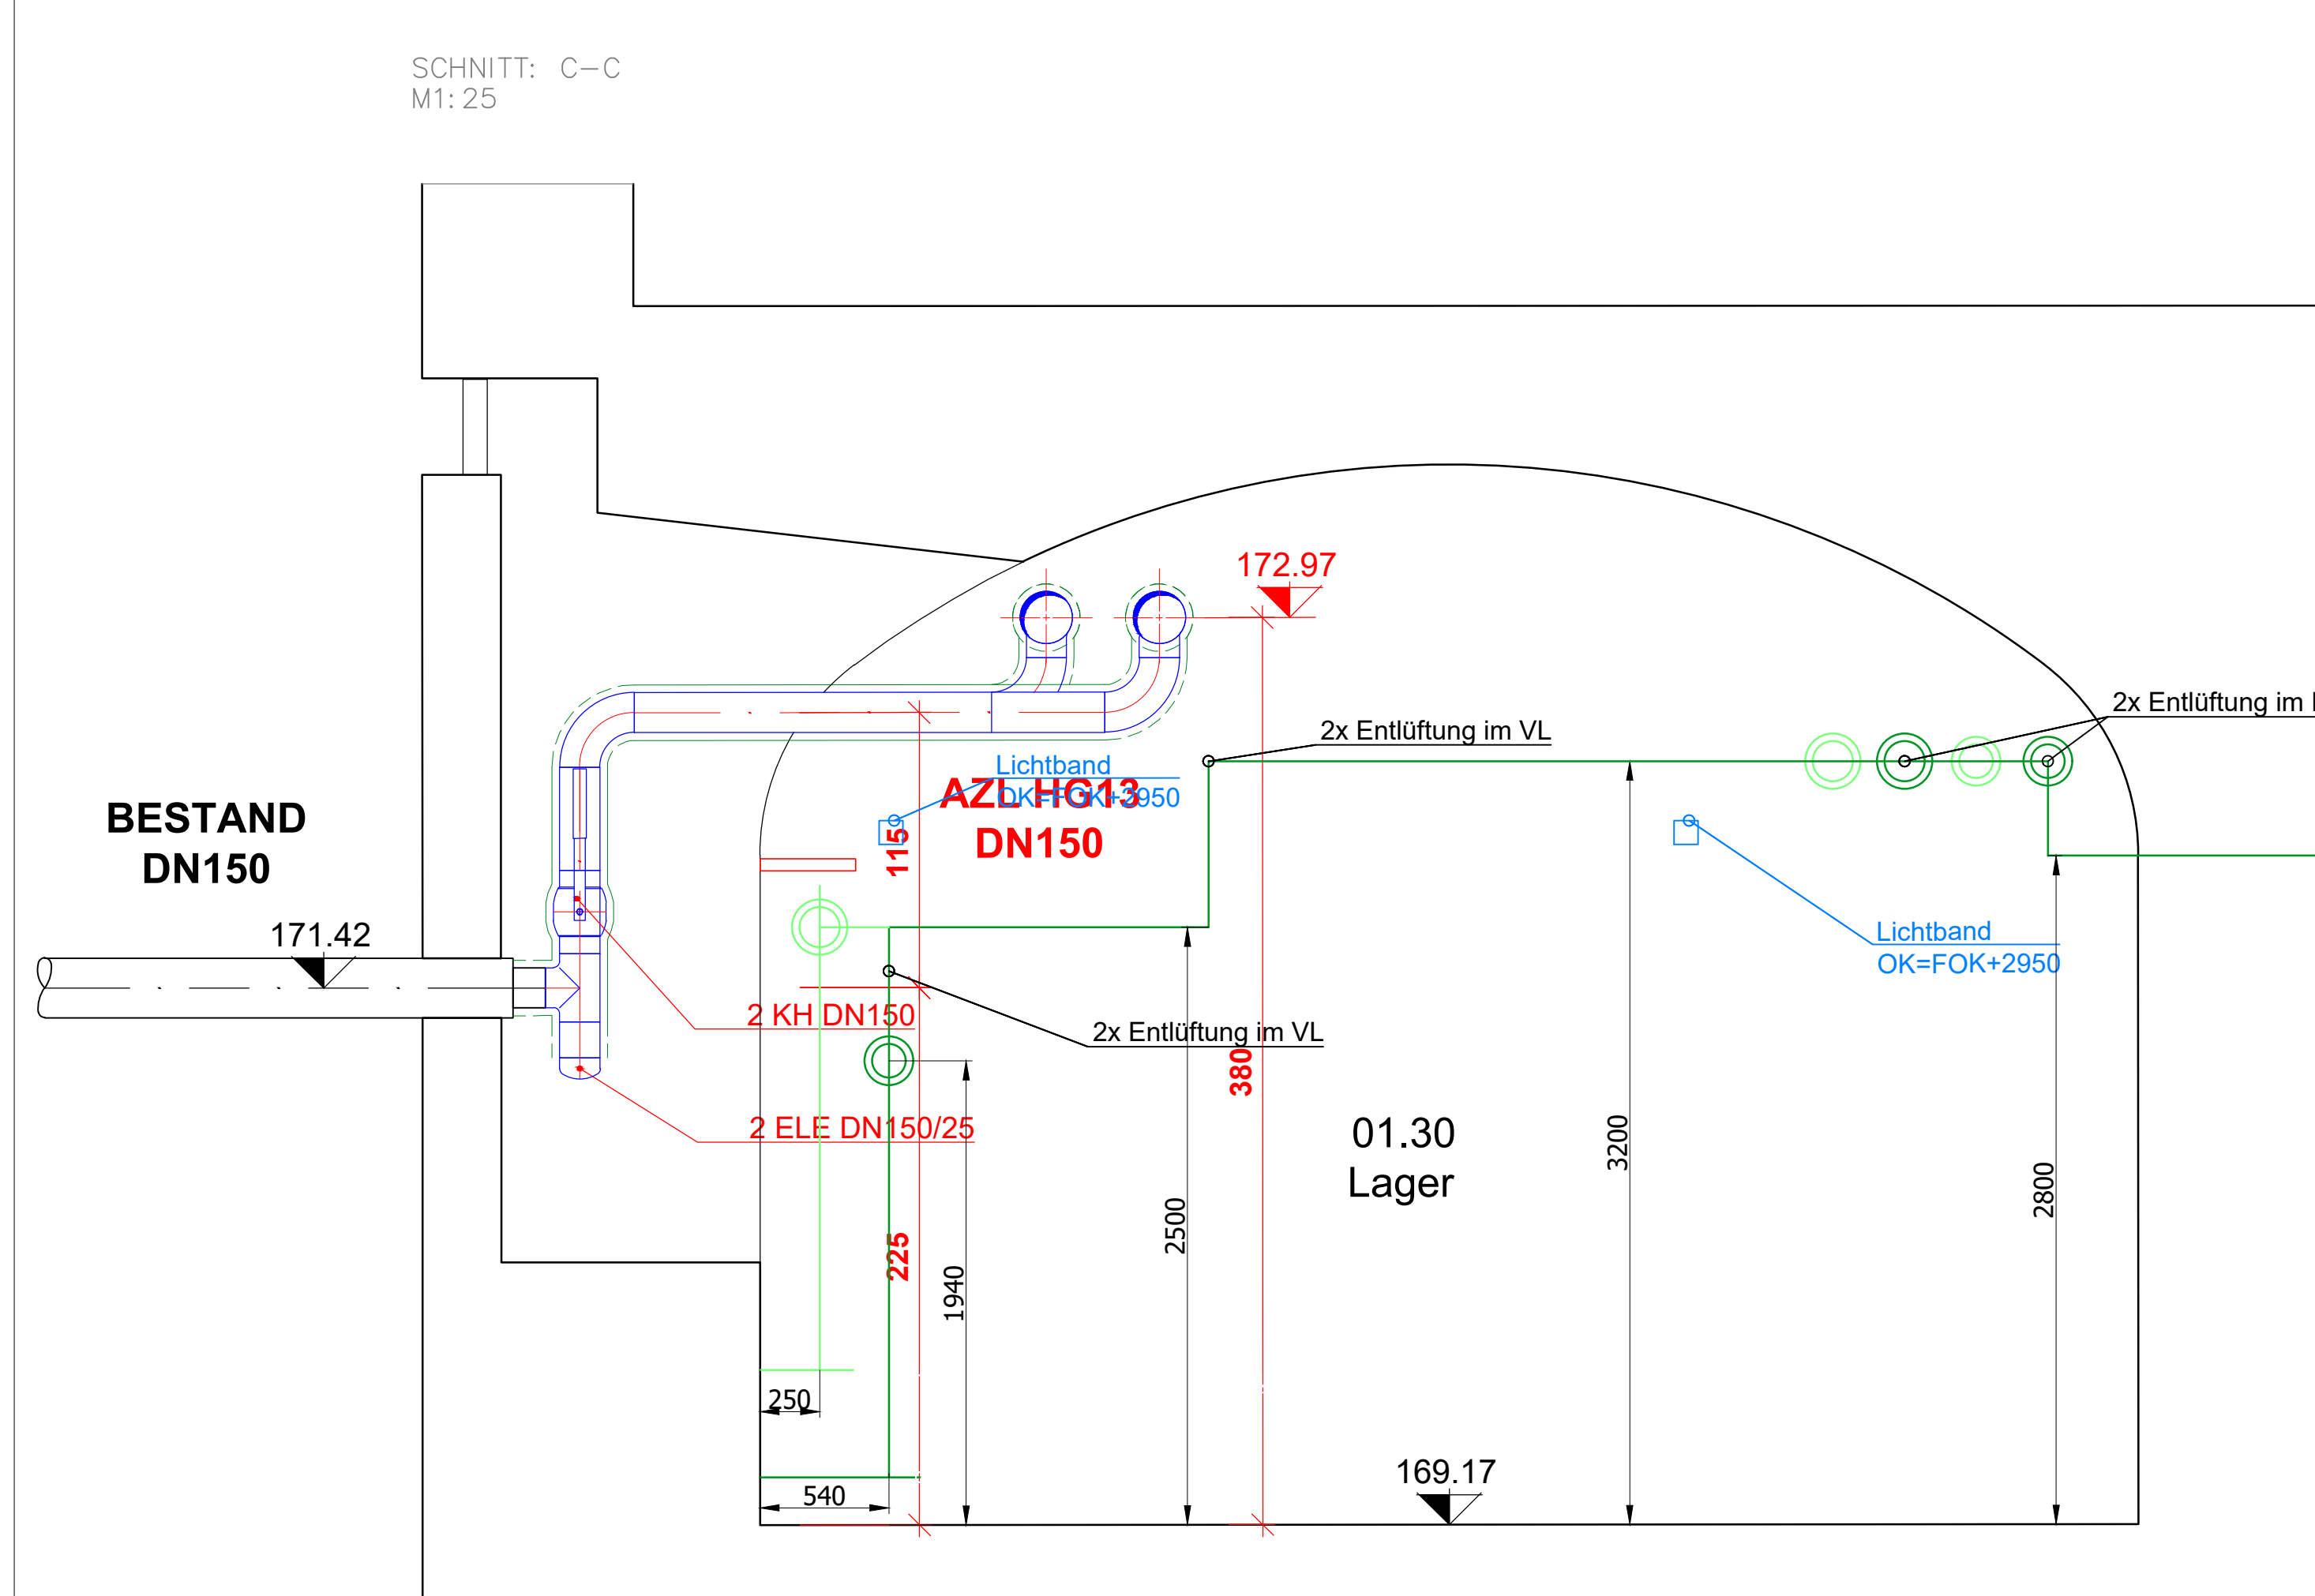

Figure 1: Schematic representation of the 1000 Genomes Project. The figure shows a vertical list of genomic features on the left and a corresponding horizontal bar chart on the right. The features are: Schindler-Rieger, Usher1b-like2, Retinitis pigmentosa 1, Abetalipoproteinemia, Abetalipoproteinemia, Abetalipoproteinemia, Abetalipoproteinemia, Abetalipoproteinemia, Abetalipoproteinemia, Abetalipoproteinemia. The bar chart shows the frequency of each feature across 1000 individuals, with a color scale from red (high frequency) to blue (low frequency).
